WPC WALL SLATS

Modern Elegance Meets Durability

Transform your interiors with **Wood Plastic Composite (WPC) Cladding**, the perfect blend of natural aesthetics and advanced engineering. Designed for style, strength, and sustainability, WPC cladding offers a versatile solution for contemporary living spaces.

Key Features

Premium Finish: Realistic wood-grain textures with a sleek, modern look.

Durable & Long-Lasting: Resistant to moisture, warping, and termites.

Low Maintenance: Easy to clean, no need for regular painting or sealing.

Eco-Friendly: Made from recycled wood fibres and polymers.

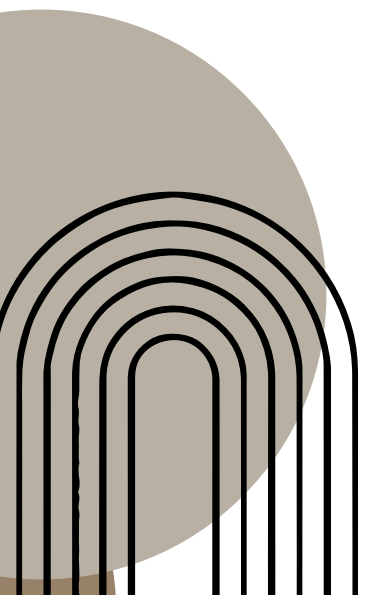

Versatile Application: Ideal for accent walls, ceilings, and decorative panels.

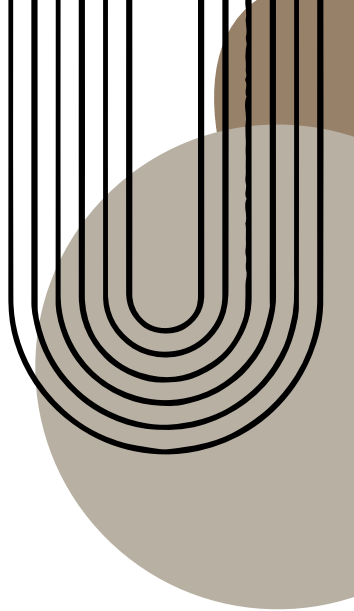

Specifications

Available in multiple finishes and colours to suit any interior design theme.

Applications

- Living rooms, bedrooms, and hallways
- Office interiors and reception areas
- Retail and hospitality spaces

HALF ROUND CLADDING

Natural Curves, Modern Finish

Bring warmth and character to your interiors with **Half Round Cladding**, a stylish solution that combines the timeless appeal of wood with a contemporary curved profile. Perfect for creating feature walls and decorative surfaces, this cladding adds depth and texture to any space.

Key Features

Unique Curved Profile: Soft half-round design delivers a bold yet elegant look.

Premium Quality: Crafted from durable materials for long-lasting performance.

Versatile Styling: Complements both modern and traditional interiors.

Easy Installation: Lightweight panels designed for quick and seamless fitting.

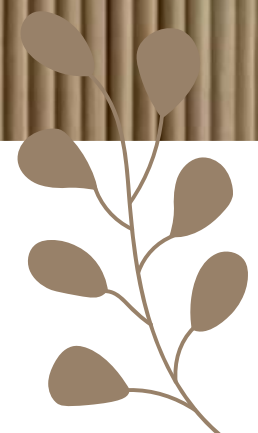

Low Maintenance: Resistant to wear, simple to clean, and built to last.

Specifications

Available in multiple finishes and colours.

Applications

- Accent walls in living rooms and bedrooms
- Reception areas and office interiors
- Retail, hospitality, and feature installations

FLEXIBLE STONE

Authentic Stone, Effortless Application

Experience the beauty of natural stone with the convenience of flexibility. **Flexible Stone Sheets** deliver the timeless elegance of real stone surfaces in a lightweight, bendable format that adapts to any design vision.

Key Features

Natural Stone Surface: Each sheet features a genuine stone veneer for authentic texture and appearance.

Flexible & Lightweight: Easily bends and adapts to curved or uneven surfaces.

Durable & Resilient: Resistant to cracking, peeling, and environmental wear.

Easy Installation: Can be cut, glued, or mounted with minimal effort.

Versatile Design: Suitable for both interior and exterior applications.

Specifications

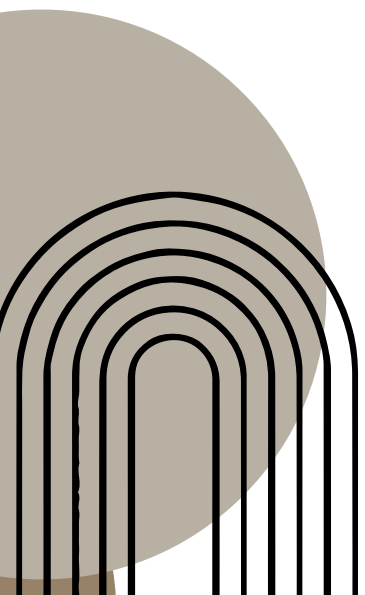

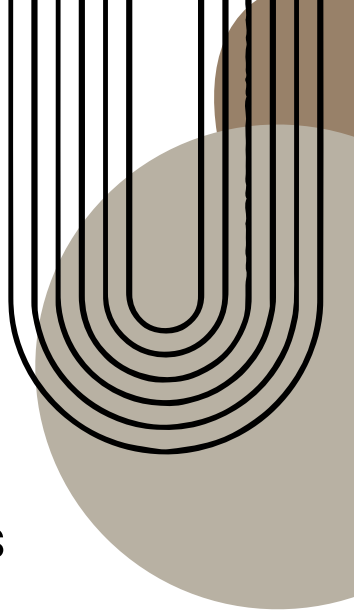

Standard sheet size: customizable to project requirements

Thickness: ultra-thin veneer for flexibility without compromising strength

Available in a variety of stone finishes and colours

Applications

- Feature walls and decorative panels
- Furniture and cabinetry surfaces
- Columns, arches, and curved installations
- Retail, hospitality, and office interiors
